rakeshraparthi8@gmail.com | +91 6300154453 | Hyderabad, India

PROFESSIONAL SUMMARY

Award-winning **Senior Mobile Programmer** with over **9 years of experience** specializing in high-performance **Flutter & Dart** and **Native Android (Kotlin / Jetpack Compose)** ecosystems for the past 5 years. Recipient of the **Digital Transformation Excellence Award** and **SKOCH Order of Merit (2024)** for engineering large-scale e-governance solutions. Expert in **GetX state management**, **Clean Architecture**, and modern declarative UI frameworks. Proven track record in building responsive, scalable mobile applications with robust **Spring Boot/Ktor** backend integrations.

CORE SKILLS

- **Flutter Expertise:** Flutter SDK, Dart, **GetX (State Management & Dependency Injection)**, Responsive UI/UX, Native Bridges (Kotlin/Swift).
- **Mobile Technologies:** Android SDK, Kotlin, Java, Jetpack Compose, Kotlin Multiplatform.
- **Backend & APIs:** **RESTful APIs**, Spring Boot, Ktor, Retrofit, Firebase (Auth, Firestore, FCM).
- **Architecture & Testing:** Modular Code, **Clean Architecture Principles**, Async Programming, Debugging.
- **Advanced Features:** Google Maps SDK, Google ML Kit, Razorpay, ICICI Payment Gateway, Bluetooth SDK.
- **Tools & DevOps:** Git, **CI/CD Pipelines**, Fastlane, GitHub Actions, Play Store/App Store Deployment.

PROFESSIONAL EXPERIENCE

Sr. Programmer – Silver Touch Technologies / Velocis Systems | Oct 2022 – Present

Deputed to: National Informatics Centre (NIC), Hyderabad

Project: TS e-Mining & SBTET TG Software Suite (Flutter & Jetpack Compose)

- **Architected cross-platform Flutter applications** and **Native Kotlin (Jetpack Compose)** modules following Clean Architecture to ensure modularity.
- **Mastered GetX and Compose State management** to handle reactive data flows, complex routing, and business logic for government enterprise tools.
- **Developed responsive declarative UIs** using Jetpack Compose and Dart to ensure seamless performance across diverse Android devices.

- **Engineered Native Bridges and KMP shared modules** using **Kotlin** to unify business logic and access platform-specific hardware sensors.
- **Integrated RESTful APIs** via Ktor and Retrofit, utilizing **Kotlin Coroutines** to optimize asynchronous network operations.
- **Managed high-traffic production releases** on the Google Play Store, maintaining high crash-free rates.

IT Associate – Transaction Analysts (India) Pvt. Ltd. | Jan 2022 – Sep 2022

- **Enhanced Native Kotlin modules** and Flutter-based UI components for the **T AppFolio (MeeSeva)** ecosystem.
- **Leveraged Kotlin Coroutines and Flow** to optimize background processing and real-time notification handling.
- **Troubleshoot cross-platform performance issues**, resolving memory leaks and optimizing startup times for large-scale government users.

Sr. Programmer / Programmer | Jan 2017 – Dec 2021

Deputed to: National Informatics Centre (NIC), Hyderabad

Projects: mPoS, T-Ration, School Donation (Native Android - Java)

- **Developed mission-critical native Android applications** primarily using **Java** to support state-wide distribution systems.
- **Engineered Java-based authentication modules** for biometric identity verification and secure transaction processing.
- **Integrated Bluetooth thermal printer SDKs** using native Java libraries for instant on-site receipt generation.
- **Implemented Location Services** via Google Maps SDK for real-time route tracking and logistics geofencing.
- **Collaborated on legacy code reviews** and optimized Java applications for performance on low-end hardware.

KEY ACHIEVEMENTS

- **SKOCH Order of Merit (2024):** Awarded for technical excellence in the TS e-Mining Project.
- **Digital Transformation Excellence Award:** Recognized for innovation in government mobile solutions.

EDUCATION

Bachelor of Technology (B.Tech) – Information Technology

Vaageswari College of Engineering (JNTU-H) | 2013
